

Karim Belhadj

Senior Software Engineer

Tunis, Tunisia | +216 22 345 678 | karim.belhadj@example.com | linkedin.com/in/karimbelhadj | github.com/kbelhadj

PROFILE

Backend-focused software engineer with 6 years of experience building scalable APIs and distributed systems in fintech and e-commerce. Strong background in Python, Go, and cloud infrastructure (AWS). Enjoys mentoring junior developers and improving engineering processes.

EXPERIENCE

Senior Backend Engineer — Paymee

Tunis, Tunisia | March 2022 – Present

- Led the redesign of the payment processing microservice, reducing transaction latency by 40%.
- Designed and implemented an event-driven architecture using Kafka, supporting 2M+ daily transactions.
- Mentored a team of 4 junior engineers and introduced code review standards across the team.
- Migrated legacy monolith components to containerized services on AWS ECS, cutting infra costs by 25%.

Backend Engineer — InstaShop

Sfax, Tunisia | June 2019 – February 2022

- Built and maintained RESTful APIs in Django serving the company's e-commerce platform (500k+ users).
- Implemented caching layer with Redis, improving average page load time by 30%.
- Collaborated with product team to design and ship the order-tracking feature.

Junior Developer — TuniSoft

Tunis, Tunisia | September 2018 – May 2019

- Developed internal tooling in Python for automating QA test reports.

EDUCATION

M.Sc. in Computer Science — National School of Computer Sciences (ENSI)

Manouba, Tunisia | 2016 – 2018

B.Sc. in Computer Science — Faculty of Sciences of Tunis

Tunis, Tunisia | 2013 – 2016
