EDUCATION

Engineering Degree in Applied Computer Science National School of Engineers of Sousse (ENISO) <i>Ranked 3rd out of 53 students in the first year</i>	2024 – Present
Preparatory Cycle for Engineering Studies Preparatory Institute for Engineering Studies of Monastir (IPEIM)	2022 – 2024
Baccalaureate in Mathematics Fattouma Bourguiba High School, Monastir, Tunisia	2019 – 2022

TECHNICAL SKILLS

Programming Languages	Python, Java, C, C#, JavaScript, Dart, Shell Scripting
Web Development	HTML, CSS, JavaScript, Node.js, MongoDB, PostgreSQL
Mobile Development	Flutter
Databases	MongoDB, PostgreSQL

ACADEMIC PROJECTS

Pick and Place Robot Simulation	October 2025 – January 2026
· Simulated a visually-guided robotic arm for automated part picking from a conveyor belt in Webots · Implemented computer vision using YOLO for real-time object detection and localization · Programmed robot control logic in Python for precise pick-and-place operations	
Intelligent Virtual Desktop Assistant	March 2025 – May 2025
· Designed and developed a voice-activated virtual assistant with Tkinter graphical interface · Integrated multiple APIs for enhanced functionality including web search, weather updates, and task automation · Implemented natural language processing for voice command recognition using Python	
Virtual Wardrobe Website	October 2024 – February 2025
· Developed a full-stack web application for personalized wardrobe management with user authentication and CRUD operations · Implemented frontend using HTML, CSS, and JavaScript with responsive design · Built backend REST API with Node.js and MongoDB for data storage and retrieval	

INTERNSHIP

Software Development Intern, TANIT Company	July 1 – September 1, 2025
Developed a mobile application for fleet management using Flutter and Dart.	

POSITION OF RESPONSIBILITY

Treasurer <i>ENISO CyberGuards Cybersecurity Club</i>	2026 – 2027
· Managing financial operations, budget allocation, and maintaining accurate financial records for the club · Organizing and coordinating cybersecurity workshops, CTF competitions, and awareness campaigns	

CERTIFICATIONS

LLM Applications With Prompt Engineering – NVIDIA	<i>March 2026</i>
Prompt engineering techniques, LLM optimization, NLP applications	
Data Parallelism: How to Train Deep Learning Models on Multiple GPUs – NVIDIA	<i>December 2025</i>
Data parallelization, distributed training, GPU optimization	
Applications of AI for Predictive Maintenance – NVIDIA	<i>December 2025</i>
AI applied to predictive maintenance, real-time data analysis	

LANGUAGE SKILLS

Arabic: Native	French: C1 (TCF)	English: Fluent
