OBJECTIVE

Recent computer science graduate seeking a junior data analyst position. Strong foundation in statistics, SQL, and Python from academic projects and a 4-month internship. Eager to apply analytical skills to real-world business problems.

EDUCATION

B.Sc. in Computer Science

Higher Institute of Computer Science (ISI), Ariana, Tunisia — Sept 2022 to June 2025

Relevant coursework: Databases, Statistics, Machine Learning Fundamentals, Data Structures & Algorithms.

Graduation project: Built a sentiment-analysis tool for Arabic social media posts (grade: 17/20).

Baccalaureate, Mathematics

Lycée Pilote de Sousse — June 2022

EXPERIENCE

Data Analyst Intern — Tunisie Telecom

Tunis, Tunisia — February 2024 to June 2024

- Cleaned and analyzed customer churn data for over 50,000 records using Python and Excel.
- Built a dashboard in Power BI to track monthly KPIs for the customer retention team.
- Presented findings to a team of 5 analysts, contributing to a proposed retention campaign.

Student Tutor (Part-time)

Self-employed, Sousse, Tunisia — September 2021 to June 2022

- Tutored high school students in mathematics and physics, preparing them for the baccalaureate exam.

PROJECTS

- Built a personal expense tracker web app using Flask and SQLite (available on GitHub).
- Participated in a 48-hour hackathon, placing 2nd among 20 teams with a public-transport routing app.

SKILLS

Python, SQL, Excel, Power BI, Pandas, basic Flask, Git, statistics fundamentals.

LANGUAGES

Arabic (native), French (fluent), English (intermediate, B2).
